To good connections

Dear passengers,

wherever your journey may take you - we will do everything we can to ensure that you reach your destination safely and happily. In this handbook, we have summarised the legal principles for your trips in Austria with us.

If you buy a ticket for an ÖBB-Personenverkehr AG train, bus or transfer service to a destination in Austria, you enter into a contract of carriage with us. Your rights and obligations under this contract are set out in the Conditions of Carriage, Section A. [→ 14] of this manual.

The fare conditions in Section B. [→ 41] provide information about the tickets we offer, as well as the according terms of use. In Section C. [→ 71], "Customer groups", you can read all about possible discounts on ticket prices.

In order to ensure that this guide is easy to read and understand, we use the terms "customer", "senior citizens" and "employee" for both genders. When we write about "buses", we mean our Intercity buses. If we mention "ÖBB" or "us" in the rates, we are always referring to ÖBB-Personenverkehr AG.

We hope you have a pleasant journey and will be happy to answer any questions you may have at our service number 05-1717. On the Internet, you will find information on travelling with ÖBB at oebb.at.

A.3. Travelling on our trains and buses

A.3.1. Tickets

A.3.1.1. Contract of carriage

A.3.1.1.1. In order to travel on trains and buses operated by ÖBB, you need a valid ticket. This is the proof of your contract of carriage with us, and the basis of your rights and obligations before, during and after your journey. Please check immediately after purchase that the ticket corresponds to your travel requirements.

A.3.1.1.2. The contract of carriage is concluded in one of the following situations:

- Your ticket is handed over or sent to you
- You click on “Complete ticket purchase” on shop.oebbticket.at or within the ÖBB Ticket App.

If you book your trip via shop.oebbticket.at or the ÖBB Ticket App, you must ensure that you receive your ticket prior to departure, as specified in Section D.1.3. [→ 83].

A.3.1.2. Tickets for regional transport

A.3.1.2.1. For regional trains, you need a ticket before you board. This also applies to dogs and bicycles.

A.3.1.2.2. At the following train stations, you can also board our local trains without buying a ticket beforehand:

- Stations without an ÖBB ticket counter, without a travel agency selling ÖBB tickets and without ticket vending machines

- Stations where no ÖBB ticket counters or travel agencies selling ÖBB tickets are open or where all ticket vending machines have technical defects.

- A.3.1.2.3. In these cases, you will receive your ticket on the train at the same price as at the ticket vending machine at the train station, either from our staff or from the ticket vending machine on the train. Please purchase your ticket immediately after boarding, otherwise you are travelling without a valid ticket.
- A.3.1.2.4. If all ÖBB ticket vending machines at the station are defective, please contact the malfunction hotline, the number of which is noted on the vending machine, before boarding the local train. If our malfunction hotline staff can verify a technical malfunction of the ticket vending machines, you will receive a malfunction number. With this number, you can buy your ticket from the train attendant at the same price as at the ticket machine.
- A.3.1.2.5. You can also board the local train without contacting our malfunction hotline beforehand. As our train attendants are unable to verify a malfunction of the ticket vending machines, you will be subject to a penalty fare, as specified in Section A.3.2.2. [→ 19]. The penalty fare will be accompanied by a note stating that all ticket machines at the station were malfunctioning. If we are able to confirm that all ticket vending machines were defective after your appeal against the penalty fare, we will reduce the penalty fare to the price of the ticket for purchase from the ticket vending machine.
- A.3.1.2.6. Please note that a failure of the electronic payment function of a ticket machine does not constitute a defect and therefore does not entitle you to purchase a ticket on the train.
- A.3.1.2.7. Our ticket machines can only return a limited amount of change. Our ticket machine can accept banknotes of different denominations if the change to be returned to you is less than € 9.00.

A.3.1.3. Tickets for long-distance and night trains

- A.3.1.3.1. On long-distance and night trains, you can also buy your ticket from our staff on the train. Please inform our staff immediately and without being asked that you need a ticket when they come around for a first ticket check. Otherwise, you will not be travelling with a valid ticket. ÖBB standard tickets as per B.1.1. [→ 41]. have their own price for on-board sales, which you can find at www.oebb.at. Please note that you pay the on-board price when purchasing any other ticket on the train. This consists of the fare and a service fee, as specified in Section E.1.1. [→ 110].
- A.3.1.3.2. If all ÖBB ticket vending machines at the station are defective and there is neither an open ÖBB ticket counter nor a travel agency selling ÖBB tickets, please contact the malfunction hotline, the number of which is noted on the vending machine, before boarding the long-distance train. If our malfunction hotline staff can verify a technical malfunction of the ticket vending machines, you will receive a malfunction number. With this number, you can buy your ticket from the train attendant at the same price as at the ticket machine.
- A.3.1.3.3. You can also board the long-distance train without contacting our malfunction hotline beforehand. As our train attendants are unable to verify a malfunction of the ticket vending machines, they will sell the ticket to you as per Section A.3.1.3.1. [→ 16]. If you subsequently contact our customer service and they can confirm that all ticket vending machines were defective, we will reduce the price of the ticket to the price you would have paid at the ticket vending machine.
- A.3.1.3.4. Please note that a failure of the electronic payment function of a ticket machine does not constitute a technical malfunction and therefore does not entitle you to purchase a ticket on the train.

- A.3.1.3.5. Our ticket machines can only return a limited amount of change. Our ticket machine can accept banknotes of different denominations if the change to be returned to you is less than € 9.00.
- A.3.1.3.6. Train journeys at night with the ÖBB Nightjet or the EuroNight, where the timetable is not yet fixed at the time of booking, will be marked accordingly in the timetable. You buy tickets for these train journeys by providing us with your e-mail address at the time of purchase so that we can inform you of the current timetable no later than 21 days prior to the train's departure. If the schedule deviates from the original schedule by more than 60 minutes, you have the possibility to cancel all tickets without any fees, up to 15 days prior to the train's departure. This also applies to tickets that otherwise cannot be cancelled. Please note that in this case, the rule also applies that a ticket downloaded as PDF cannot be cancelled, as specified in Section D.1.6.1.4. [→ 88].

A.3.1.4. Tickets for specified means of transport and passengers

- A.3.1.4.1. Tickets linked to specific trains or buses are only valid on the trains and buses for which they were purchased. You can only travel on the trains and buses indicated on the ticket. The ticket is not valid on any other train or bus. The restriction of the validity to certain trains and buses can be found in the Terms of Use for the tickets in Section B. [→ 41].
- A.3.1.4.2. We cancel the limitation to a certain train or bus if the use of the original connection is not possible because:
- The train or bus was cancelled,
 - You miss your connecting train or bus due to a delay or
 - the train or bus can only be boarded with a reservation because it is too full.
- Our train attendants will confirm the cancellation of the limitation to a certain train or bus.
- A.3.1.4.3. Personalised tickets are made out to the names of the passengers you have specified when booking. If you receive a ticket for several passengers with only one person's name on it, proof of identity of this person will be required during ticket inspection.
- A.3.1.4.4. If the person whose name appears on the personalised ticket for more than one passenger is not travelling with you, please bring a written confirmation of non-participation in the journey as well as a copy of the identity document of the person whose name appears on the ticket.
- A.3.1.4.5. Please note that in the case of personalised tickets, the number of passengers will be reduced by the person who is unable to travel. It is not possible for a substitute to travel instead of this person. Reimbursement shall be made subject to the provisions of the fare conditions as per Section B.1. [→ 41].

A.3.1.5. Ticket inspections

- A.3.1.5.1. Please keep your ticket safe – it may also be checked any time after your journey, until you have left the platform access.
- A.3.1.5.2. We inspect tickets and, if applicable, the associated discount cards manually as well as electronically by scanning the code. During an inspection, you show your ticket and, upon request, also your proof of identity or your discount card to our staff. Our employees will also show their employee ID card upon request.
- A.3.1.5.3. In order to prevent fraud, we randomly collect tickets to verify their authenticity. If you are ever subject to such a collection of your ticket, we will issue you with a replacement ticket, which is then your valid ticket and also serves as a confirmation of collection.

A.3.1.5.4. If you are travelling with an invalid ticket or an invalid discount card as per Section A.3.2.1.1. [→ 18], we will also collect it. In this case, you are considered a passenger without a valid ticket and will be subject to a penalty fare.

A.3.1.6. Where can you buy our tickets?

A.3.1.6.1. You can obtain the tickets for our trains and buses from the following points of sale:

- ÖBB ticket counter
- at shop.oebbtickets.at
- ÖBB ticket vending machine
- Customer service 05-1717
- ÖBB Ticket App
- in travel agencies and other agencies selling ÖBB tickets
- from the staff on our long-distance and night trains
- from the staff on our local trains, as specified in Section A.3.1.2. [→ 15].

A.3.1.6.2. You can obtain the prices for our tickets in our electronic sales systems, at ÖBB ticket counters or from our customer service at 05-1717, in each case for the respective sales channel. They may differ for standard tickets, weekly and monthly tickets depending on the time of purchase and the distribution channel. You can find an overview of the prices at www.oebb.at.

A.3.1.6.3. Please keep your ticket safe. In the event of a loss, we can only replace tickets issued in your name at an ÖBB ticket counter. Unfortunately, we cannot replace other tickets, even if you have an invoice for them.

A.3.1.6.4. Please note the following regarding the issuance of replacement tickets at an ÖBB ticket counter: ÖBB tickets issued on security paper at an ÖBB ticket machine or an ÖBB ticket counter can only be reissued upon presentation of confirmation of an official loss or theft report. This is due to financial and tax law regulations.

A.3.2. Passengers without a valid ticket or without a valid discount card

 - If your station of departure and your destination are in different route sections, we calculate an arithmetic mean of the determined degrees of punctuality for those route sections on which you travel between your station of departure and your destination.

D.6. General Terms and Conditions for ÖBB's 1st class upgrade for the Klimaticket Ö as part of the "12+1" promotion

D.6.1. Contract

- D.6.1.1.1. The contract for ÖBB's 1st class upgrade for the Klimaticket Ö, hereinafter referred to as the "upgrade", between you as a customer and us, ÖBB-Personenverkehr AG, hereinafter referred to as "ÖBB", comes into effect as soon as we accept your order. Prerequisite: You are the holder of a valid Klimaticket Ö. The contract ends on the expiry date of your Klimaticket Ö. With the upgrade, you can use the entire ÖBB network in Austria, as described in Section B.1.15. [→ 62]. of the current handbook. The offers of our partner companies are exclusively subject to their own terms and conditions and terms of use. If you purchase an upgrade with validity starting from 1 July 2022 until 15 January 2023, the validity period of the upgrade will be extended by one month, i.e. from 12 to 13 months, as part of the "12+1" promotion. For customers who have purchased their upgrade prior to the validity start date of the "12+1" promotion on 30 June 2022, the "12+1" promotion applies to contract renewals until 30 June 2023.
- D.6.1.1.2. The upgrade is valid from the date you specified when ordering and ends after 13 months, on the expiry date printed on the Klimaticket Ö. If you do not have a valid Klimaticket Ö, the contract is not concluded and the upgrade is not valid. In this case, you may not use the upgrade and must return the vouchers by registered mail to ÖBB Kundenservice, Postfach 222, 1020 Vienna. Vouchers that have been issued on the basis of incorrect information will be collected and not replaced. As a rule, you pay for the upgrade when you order it.
- D.6.1.1.3. For upgrades, there is a fee-based instalment option. If you would like to use the instalment option, you pay the first 2 monthly instalments when ordering; the balance (depending on the remaining term of your Klimaticket Ö) will be debited from your account via SEPA direct debit in equal monthly instalments. If you renew your upgrade contract as well as the contract for your Klimaticket Ö and pay by SEPA direct debit, we will debit the purchase price from your account in 13 equal monthly instalments. If you pay your upgrade without the instalment option, you renew it by depositing the total amount indicated on the payment form.
- D.6.1.1.4. In case of payment arrears from old contracts for the upgrade or other ÖBB products (Österreichcard, Vorteils card), the instalment payment option is excluded.
- D.6.1.1.5. Approximately 2 months prior to the end of the upgrade contract, you will receive an invitation to renew the contract.
- D.6.1.1.6. The modality for contract renewal depends on the agreed method of payment:
- SEPA direct debit: The contract is automatically renewed for 12 months if you do not object to the contract renewal in writing within the period stated in the renewal letter. If you object to the renewal of the contract in writing within the specified period, no new contract will be concluded, and the SEPA mandate issued will be cancelled. In the invitation to renew the contract, you will again be separately informed of the start and end of the objection period and the legal consequences of not exercising your right of objection.
 - If in the event of a monthly direct debit the debtor is in arrears with at least one instalment, a written reminder shall be sent for the outstanding amounts, setting a grace period for the payment of the outstanding instalments. The same applies if the SEPA direct debit mandate is revoked or the account is closed without prior proven return of the ticket at an ÖBB ticket counter. If, after the first reminder, the outstanding

amounts are not paid within the grace period stated in the reminder letter, a second written reminder will be sent, again setting a grace period for the outstanding instalments and charging a reminder fee. If the outstanding amounts are again not paid within the grace period stated in the second reminder letter, the claim is handed over to a debt collection agency and the third reminder is issued by the latter. The third reminder constitutes a qualified default of payment. In the event of qualified default of payment, ÖBB-Personenverkehr AG is entitled to block the upgrade. The upgrade thereby becomes invalid. If 1st class is used without a valid upgrade or ticket, a penalty fare will be charged.

- Payment form: The contract is automatically renewed for 12 months if you settle the renewal costs via the payment form within the period stated in the contract renewal letter. If you do not pay via the payment form in time, no new contract is concluded. The new contract begins on the day after the expiry date of the previous 1st class upgrade

- D.6.1.1.7. During the period of validity, the ticket can be cancelled in writing from the 7th month of validity of your Klimaticket Ö onwards, without giving any reason, by using the cancellation form. The start of a new month of validity is determined by the start of validity chosen when purchasing the Klimaticket Ö and therefore falls on the same calendar day of each month. In the event of a cancellation, the Klimaticket Ö and the 1st class upgrade must be cancelled separately.
- D.6.1.1.8. A valid cancellation requires a signed cancellation form and the demonstrable return of the proof of upgrade to a service centre. In the event of a cancellation, a cancellation fee equal to one month's fee will be charged; this is a part of the purchase price.
- D.6.1.1.9. In the event of a one-off payment in advance, the corresponding monthly amounts less the cancellation fee will be transferred to the specified account for each month of validity not commenced.
- D.6.1.1.10. In the case of SEPA direct debit, a final monthly amount will be debited as a cancellation fee; the corresponding monthly amounts will no longer be debited for each month of validity not commenced.
- D.6.1.1.11. An extraordinary right of cancellation exists
- if you move from Austria to a foreign country, by providing proof of deregistration from the Austrian Central Register of Residents and proof of the new address abroad,
 - in case of illness over a period of 3 months or more, documented by means of a medical certificate, or
 - in the event of loss of employment by providing proof of unemployment.
- D.6.1.1.12. In all cases, the upgrade must be handed in at an ÖBB ticket counter together with the signed cancellation form.
- D.6.1.1.13. In the case of extraordinary cancellation, the cancellation fee does not apply.
- D.6.1.1.14. If the holder of the upgrade dies, any unused month of validity of the price will be refunded free of charge to the beneficiary or liquidator of the estate. For this purpose, the reimbursement form with a copy of the death certificate, proof of entitlement to inheritance and the upgrade must be submitted to a service centre.
- D.6.1.1.15. If a SEPA direct debit mandate was issued when the contract was concluded, the contract renewal can be contested in writing within the payment period specified in the invitation letter for the contract renewal. The written objection must either be sent by post (registered mail is recommended) to ÖBB Kundenservice, Postfach 222, 1020 Vienna, submitted via contact form or demonstrably handed in at a service point.

D.6.2. Issue of the upgrade

- D.6.2.1.1. If the contract with us is concluded, you will receive proof of the upgrade on security paper with your name directly at the counter when purchasing. Alternatively, in the event of an online purchase, it will be stored in your customer account.
- D.6.2.1.2. Misused certificates will be collected without replacement.

D.6.3. Use of the upgrade

- D.6.3.1.1. If you use the upgrade, please present the following during ticket inspection:

- D.6.3.1.2. Only use the upgrade if your Klimaticket Ö and the contract for the upgrade are valid.

D.6.4. Replacement in the event of loss or theft

- D.6.4.1.1. Please report the loss or theft of your proof of upgrade to the responsible authorities immediately. As soon as we receive your report, the upgrade will be blocked, and you are released from the risk of misuse. You will then receive a replacement certificate, as outlined in Section E.1.13. [→ 112] of the manual.

D.6.5. Changes of address and customer data

- D.6.5.1.1. Please inform us immediately if your customer data changes, e.g. your name, address, e-mail address, etc. If you do not inform us, all documents and declarations sent to the last known address/e-mail address are deemed to have been received.

D.6.6. Modifications

- D.6.6.1.1. We will inform you in writing by letter or e-mail about changes to the General Terms and Conditions of the upgrade. If, within the period stated in the letter outlining the changes, you do not object to them, you are deemed to have accepted them. In the amendment letter, we will inform you of the objection period and that the changes will take effect if you do not object to them. If you object, you can terminate the contract with immediate effect. In this case, you must return the proof of upgrade to us. The payments will be refunded pro rata for each month not started.

It is therefore important that you always print out PDF tickets for trips to or within another country in advance.
- D.8.3.2.3. Please print the PDF ticket on white paper in A4 portrait format. It is technically not possible for the train attendants to scan and accept a ticket printed in a different format and colour. In such cases, the provisions of Section A.3.2. [→ 18] for passengers without a valid ticket apply.
- D.8.3.2.4. When printing your PDF ticket, please make sure not to fold your ticket in the area of the printed bar code. This code is used to save important data about your ticket and your person which is retrieved when the ticket is checked.
- D.8.3.3. Ticket pick-up at an ÖBB ticket machine or an ÖBB ticket counter**
- D.8.3.3.1. D.9.2.2. Travel authorisation

- D.9.2.2.1. In Section A.3.1.1. [→ 15] of the Conditions of Carriage, we have stated that in order to travel on our trains you need a valid ticket, which is proof of the contract of carriage. In order to issue a ticket, all relevant information is required prior to the start of the journey. With SimplyGo!, this information is not available until after the end of the journey, which is why no conventional ticket is issued.
- D.9.2.2.2. With SimplyGo!, the travel authorisation displayed in the ÖBB Ticket App is your proof of a valid transport contract. Hereinafter, the travel authorisation is also referred to as your SimplyGo! ticket. The travel authorisation applies to the person registered with their customer account.
- D.9.2.2.3. For inspection purposes, the SimplyGo! ticket in the ÖBB Ticket App contains a code that is scanned and electronically verified by our staff on the train. For this, the regulations pursuant to Section A.3.1.5. [→ 17] of the Conditions of Carriage apply.

D.9.2.3. Commencement of the travel authorisation

- D.9.2.3.1. Before you start your journey with SimplyGo!, make sure that your mobile phone still has enough battery power for the entire duration of your journey. Also, set all functions for location services throughout the period of validity of your travel authorisation.
- D.9.2.3.2. At the first check-in of the day, ÖBB-Personenverkehr AG reserves the right to carry out a pre-authorisation on your credit/debit card in the ÖBB Ticket App with a small booking. Only after this procedure has been successfully completed is check-in possible. Subsequently, the pre-authorised amount is released again.
- D.9.2.3.3. Start your travel authorisation prior to boarding transport by dragging the slider to the right. The ÖBB Ticket App confirms a successful check-in for your journey by displaying the status message “Tracking in progress”. Only then do you have a valid travel authorisation and can board the means of transport.
- D.9.2.3.4. Successfully complete check-in prior to scheduled departure and boarding. Otherwise, you will be travelling without a valid travel authorisation. In this case, you are considered a passenger without a valid ticket and will be subject to a penalty fare.

- D.9.2.3.5. Carry out the check-in prior to entering the platforms if you are travelling with transport companies where you are only allowed to enter the platforms with a valid ticket.
- D.9.2.3.6. The check-in process may take a few moments, depending on the strength of the mobile network or WiFi. Therefore, start it in good time before boarding the means of transport or entering the platform.
- D.9.2.3.7. If check-in is not possible for technical reasons, please purchase your ticket via alternative distribution channels, in accordance with Section A.3.1. [→ 15] of the Conditions of Carriage.

D.9.2.4. Termination of the travel authorisation

- D.9.2.4.1. After you have reached your destination stop and left the means of transport, be sure to end your journey in the ÖBB Ticket App by dragging the slider to the left. The ÖBB Ticket App automatically terminates the travel authorisation as soon as a final stop has been recorded, thereby successfully completing the check-out.
- D.9.2.4.2. Immediately after successful check-out, the ÖBB Ticket App determines the preliminary price of your journey. The final price at the end of a day is calculated by the ÖBB Ticket App according to Section D.9.2.5.5. [→ 107] of the Conditions of Carriage.
- D.9.2.4.3. It is very important that you end your trip by checking out. Without a checkout, we continue to record your journey and assume that you are travelling by public transport. All your movements that we can allocate to public transport will then be charged to you. We do not accept liability for any costs incurred due to a forgotten check-out.
- D.9.2.4.4. If check-out is not possible for technical reasons, please contact ÖBB Customer Service immediately. For quick processing, please have the following information at hand:
 - Customer account
 - Time and starting point of departure
 - Arrival time and destination stop
 - The connections used
- D.9.2.4.5. The ÖBB Ticket App forces a check-out and thereby terminates the travel authorisation if:
 - You do not end a trip you started before midnight with a successful check-out by 4.00 a.m. the following day
 - The ÖBB Ticket App does not receive location data over a longer period of time
 - The ÖBB Ticket App does not receive a data connection over a longer period of time
- D.9.2.4.6. For forced check-out, the same applies: We do not cover the cost of journeys not made in accordance with Section D.9.2.4.3. [→ 106] of the Conditions of Carriage.
- D.9.2.4.7. If you terminate the validity of your travel authorisation prior to leaving the means of transport by checking out early, you are from that moment on a passenger without a valid ticket pursuant to Section A.3.2. [→ 18] of the Conditions of Carriage.

D.9.2.5. Trip determination and fare calculation

- D.9.2.5.1. The ÖBB Ticket App's SimplyGo! function collects the following data while the travel authorisation is activated:
 - Personal ID – uniquely identifiable sequence of letters
 - Mobile phone model – model name and software version
 - Device ID – identification of the mobile phone used
 - Start and end time of each trip and its total duration

- GPS location data along the travel route
- WiFi networks
- Mobile network location data
- Accelerometer data

- D.9.2.5.2. This is used to determine reference values and points that help identify the start, course and end of the journey. The ÖBB Ticket App assigns a valid public transport timetable to this mobility behaviour.
- D.9.2.5.3. Mobility behaviour is determined automatically with the check-in. You do not need to do anything else until after getting off at your destination stop. Make absolutely sure that the ÖBB Ticket App is actively running on your mobile phone the entire time.
- D.9.2.5.4. If the determination of your trip results in the wrong trip being identified and charged, you can request a correction from our customer service within 12 months of the date of travel.
- D.9.2.5.5. An optimised fare calculation is made for all journeys that you complete within a period from 04:10 a.m. on the day of travel to 04:10 a.m. on the following day. For the purposes of SimplyGo! fare calculation, a journey is considered to be the distance travelled between check-in and successful check-out as recorded by the system.
- D.9.2.5.6. In the first step, the system determines the appropriate ticket or tickets for each individual journey. This is also the basis for the calculated individual price shown for the journey. The tickets determined in this way then serve as the starting point for potential optimisation. For several journeys on the same route or in the same urban transport area, for example, a day ticket is charged instead of several individual tickets. The optimisation process does not break down the tickets for a journey into individual legs.
- D.9.2.5.7. In order to avoid interrupting night journeys beyond this period of time, for example on night buses or subways, journeys that start after midnight and continue after 4.10 am are not included in the daily settlement until the following day.
- D.9.2.5.8. The following ticket offers are taken into account in the fare calculation:
- ÖBB standard ticket pursuant to Section B.1.1. [→ 41] of the Conditions of Carriage
 - Single tickets of the Austrian transport associations as per Section E.5. [→ 116] of the Conditions of Carriage
 - Day tickets issued by the Austrian transport associations for the calendar day or for 24 hours as per Section E.5. [→ 116] of the Conditions of Carriage
- D.9.2.5.9. All discounts that you have registered in your customer account in the ÖBB Ticket App are taken into account when calculating the fare. Please show your proof of eligibility for a discount during any ticket inspection.
- D.9.2.5.10. A 24-hour ticket from the previous day is also recognised on the following day when using SimplyGo!, within the specified temporal and geographical validity of the ticket.

D.9.2.6. Settlement

- D.9.2.6.1. All trips for one day will be charged on the following day via the credit/debit card you have registered. You will receive an e-mail the following day with detailed information on the trips and tickets invoiced as well as an input tax certificate.
- D.9.2.6.2. If we are unable to charge your credit/debit card with the outstanding amount of one day, the SimplyGo! function in the ÖBB Ticket App will be blocked for you. We will lift the suspension if we can successfully clear the outstanding amounts via a valid means of payment.

D.9.2.7. Open amounts

- D.9.2.7.1. If we are unable to collect the outstanding amount on the following day via your deposited credit/debit card, you will receive a payment reminder from us. You will then have the option to update your credit/debit card or to register another credit/debit card.
- D.9.2.7.2. If, despite repeated attempts, we are unable to collect the outstanding amount via your registered credit/debit card, we will send you a further reminder requesting a bank transfer.
- D.9.2.7.3. If, after sending the reminder with a request for bank transfer, the outstanding amounts are not paid within the grace period stated in the reminder letter, the claim will be handed over to a collection agency. This will result in further costs for you from the collection agency.

D.9.2.8. Deactivation/Block

- D.9.2.8.1. You can deactivate the SimplyGo! function in your ÖBB Ticket App if:
- There is no travel authorisation that has been started and not yet completed
 - All past trips have been successfully invoiced and settled by you
- D.9.2.8.2. In the event of suspected misuse, we reserve the right to block the SimplyGo! function, including without prior notice. Such improper use includes:
- The deliberate manipulation of location and movement data.
 - A late check-in as well as an early check-out.
 - The use of credit/debit cards which we are unable to charge.
 - The failure to settle outstanding invoices.
 - The disclosure of false information or the withholding of information when entering into the agreement or in the course of using the SimplyGo! feature which makes it unacceptable for us to continue this agreement.
 - Failing to refrain from serious violations of these GTC despite a warning or failing to immediately remedy consequences of such violations that have already occurred.
 - Repeatedly leaving the area of validity of the SimplyGo! function.
 - Any other serious violation of these GTC and other fare conditions.

D.9.3. Liability

- D.9.3.1.1. We do not bear any costs and accept no liability for mobile phone costs incurred in connection with the use of the ÖBB Ticket App and the SimplyGo! function.
- D.9.3.1.2. A lack of functionality of the ÖBB Ticket App or the SimplyGo! function does not entitle you to start a journey without valid travel authorisation. In these cases, we refer to our alternative distribution channels, in accordance with Section A.3.1. [→ 15] of the Conditions of Carriage.
- D.9.3.1.3. We subject our software to rigorous tests before making it available for use. Nevertheless, in the event that our software causes direct damage to your device, we shall be liable provided the damage resulted from intentional action or gross negligence on our side. Any liability on our behalf regarding indirect or consequential damages or loss of profit as well as loss or modification of data is excluded. We accept no liability of viruses, unauthorised access, hacking or other errors regarding safety that can be traced to third parties.

D.9.4. Closing provisions

D.9.4.1. Applicable law

D.9.4.1.1. Our contracts are governed by Austrian law, with the exception of the referring statutes of international private law and the UN Sales Convention. The place of performance and jurisdiction is Vienna, unless the case relates to a consumer transaction as per §1 of the Austrian Consumer Act (Konsumentenschutzgesetz).

D.9.4.2. Subsidiary agreements

D.9.4.2.1. There are no other additional supplements. Additional supplements must be agreed upon in writing.

D.9.4.3. Modifications

D.9.4.3.1. We will inform you in writing by e-mail about any changes to the GTC. You accept the changes if you do not object in writing within 4 weeks of receiving the letter laying out the changes. In the amendment letter, we will inform you of the 4-week objection period and that the changes will take effect if you do not object to them. If you object, please deactivate the SimplyGo! function with immediate effect. This is only possible if you have no current trips and all past trips have already been successfully invoiced and paid in full. If you use the SimplyGo! feature despite objecting, we will assume that you accept the changes to the GTC and the objection will be deemed to have been withdrawn.

D.9.4.3.2. The provisions of these General Terms and Conditions will also apply to any new versions of the software that we make available to you and that replace or supplement the current software, unless such a software change is subject to separate General Terms and Conditions.

D.9.4.3.3. Please note that we may adjust, discontinue and limit the range of tickets and features included in SimplyGo! as we deem necessary. We also reserve the right to change procedures or requirements.

D.9.4.3.4. Please make sure that your data is always correct and complete, as we will otherwise not be able to support you optimally with your travelling needs.

D.9.4.4. Time references

D.9.4.4.1. All offers and displayed time information used by our software uses Central European Time for Austria. Deviations from the time indicated on your mobile device are therefore possible.

D.9.4.5. Contact and queries

D.9.4.5.1. In the event of any questions, for example in cases of ambiguous passenger IDs or user behaviour, we are entitled to actively contact you via the contact data stored in the customer account.
